****Building Permits are conditional upon the following:****

Submittals:

- * Detailed plans showing building elevation, floor plan and site plans with finished elevation must be submitted for approval. Additional plans specific to the project may be required.
- * Site plan is to show all easements, sanitary or storm sewer manholes or inlets and sump pump drains and connections.
- * All plans must be approved and permitted prior to the start of any work. The permit applicant is responsible for contacting this office to assure their plans have been approved before construction.
- * This office, as required in the International Building Codes, reserves the right and may require sign and sealed drawings by a Licensed Architect / Engineer.
- * Applicant must show proof of the Urbana Champaign Sanitary District Sewer permit and inspection completed and signed.
- * **Permit payment in full before any work or inspections are performed.**

Contractor To Provide:

- * Adequate notice for inspections: 48 to 72 hours. **(Same day request may not be honored)**
- * Lot pins must be exposed for the stake lay-out approval. Inspector will not locate.
- * On-site dumpster-emptied regularly. No dumpsters are to be located in the street or over public sidewalks. Permit holder is responsible for any damage to public improvements or property.
- * Complete siltation fencing must be (properly) erected prior to the initial stake lay-out inspection and/or construction.
- * All materials both new and scrap must be contained on the subject lot. **Dumping onto adjacent lots will result in fines.**
- * The lot is to be kept free of weeds and or tall grass at **ALL** times. Village ordinances require no taller than 8 inches.
- * DAILY, cleaning the streets of mud, rock, etc.
- * Maintain proper parking of all contractors / sub-contractors vehicles at all times to assure emergency vehicle access. Note: Most subdivisions under construction will be posted "NO Parking" on one side of the street or the other. Vehicles in violation will be ticketed and towed.
- * Contractor shall relocate driveways when in conflict with storm or sanitary sewer manholes. In the event that the storm sewer inlet interferes with driveway approach, the permit holder is responsible for all cost, changes or necessary corrections made to make the approach accessible. The Village Engineer, Director of Public Works, and or the Zoning Administrator must approve any changes.

Final Inspections:

- * The permit holder / general contractor is responsible for assuring that all required inspections have been performed and approved before any final occupancy is granted.
- * **The permit holder shall locate and expose lot pins for final occupancy inspection.**

Grading Statement:

As applicant of said permit, I certify that I will provide final grading as approved by the Village of Savoy Building Department or Village Engineer. All swales shall be cut to assure proper drainage and flow. In no case shall the building site be at such an elevation that proper slopes cannot be maintained and ditches / swales obstruct the flow to or from adjoining lots or inlets. The grading or construction shall not destroy any lot pins, village sidewalks, and utility easements. The permit holder must assure that all sanitary sewer manholes are two (2) inches above final grading. Damaged or missing lot pins or misalignment to sanitary sewer manholes are at the responsibility and expense of the permit holder.

I fully understand and agree to the above terms as condition of obtaining this building permit.
